

## Technical data sheet

### Hot Plate HPS (small) and HPL (large)

**Electric hot plates for small workpieces up to 5 kg or 10 kg respectively**

These electric hot plates with thermostat-controlled bearing heating are especially suited for heating small bearings or small machine parts. The temperature is infinitely adjustable from 50°C to 200°C.

- Temperature adjustable from 50°C to 200°C
- Protective cover prevents the contamination of workpieces during the heating process. Additionally, the parts heat faster when the cover is closed.
- Operating surfaces: HPS 380 x 180 mm  
HPL 380 x 380 mm

### Description of Hot Plate HPS (small) and HPL (large)

- 1 Main switch
